

How to Access REGIS through IPAD & IPHONE

1. Install the Citrix Receiver App from the App store: open the App store, search for “Citrix Receiver”, and install it:

2. Open the Citrix Receiver App

3. Click “Log on” to get into “Accounts” window;
4. Click “+” to add a new account (which is the REGIS login link); type: <https://csg.gvmc-regis.org/Citrix/XenApp/auth/login.aspx>
5. Finish adding the account. The default name of the account in this case is Gvmc-Regis Virtual Apps

6. Then click it to get into the REGIS login page. You should be able to log in now and use applications, e.g., ArcMap.
