

OFFICE OF  
CITY  
ENGINEER

# CITY OF GRAND RAPIDS

January 19, 2024

Dear Mr. Zonyk,

The City is requesting an amendment to the Transportation Improvement Program (TIP) to change the scope of work from resurfacing to reconstruction and to update the estimated costs of the project. During the development of the project scope, the City determined that the replacement of the street lighting conduit system would be desirable. Since much more of the pavement will be disturbed, reconstruction of the entire pavement would be appropriate.

We request that the TIP be amended as necessary to reflect the current estimated costs.

FY2024 STPU

**CURRENTLY PROGRAMMED**

Leonard Street – Powers Avenue to Alpine Avenue

**Project Description**

Milling and Asphalt  
Overlay (1.5 inches)

**Length**
